IDOGATE Scope & Mission

IDOGATE Scope & Mission

IDOGATE aims to provide users with access to thousands of token presale listings, from over 50 launchpads and 5 blockchains all on one page, displaying advanced metrics & comparison tools in a simple yet concise analytical ecosystem with a mission to simplify and accelerate their online investment ventures.

When Launched, IDOGATE will provide a safe platform for any user to research, manage, and quantify their current and future IDO (Initial Dex Offerings) and Token Presales.

This whitepaper provides a detailed description of the use-case, tokenomics and the future development plan of IDOGATE and its utility token (\$GATE).

02

Introduction

Introduction

In 2020 saw the meteoric rise of De-Fi and Altcoins showing good prospects with the term IDO being used every now and then in the Crypto Space.

You might be asking

What is an IDO?

In Simple terms, IDO represents Initial DEX Offering. With the new fund raising model reflecting a tectonic shift on how token crowdsale patterns have changed over time in terms of offering better liquidity for crypto assets and faster, more open fair trading.

Token public sales or ICOs as they were initially called have evolved over the last four years to The IDO model itself being the successor of fundraising methods for crypto projects.

03

Problem & Solution

Problem

Participating in an IDO or token pre-sale can be lucrative most times for an investor, but certain times it can be quite cumbersome searching for the new X100 Coin.

An investor trying to DYOR on a potential crypto gem will have to go through rigorous yet strenuous methods of checking the validity of a project which might include but not limited to checking the project's twitter, telegram, discord and so forth.

While this method has proven to come handy while performing a DYOR, it has a lot of limitations as the frantic nature of IDOs will make it even harder for an investor to focus on the metrics that matter.

Solution

IDOGATE, Your all-in-one suite of holistic IDO analysis tools for investors to reduce investment risk and increase the likelihood of profitable IDOs.

With IDOGATE platform, you can view Token presales from over 50 launchpads and 5 blockchains, having a graphical representation of crucial information about each Crypto Asset like pre-sale audit, developer dox / KYC status, pre-sale launch countdown.

Our AI bots detect new pre-sales on different IDO platforms every hour automatically, from supported launchpads and displays them on a single page with the Metrics That matter.

04

GATE Token

GATE Token

\$GATE is the utility token built on the Binance Smart Chain That will power the IDOGATE Ecosystem, Used As a subscription token to access the platform.

HOLDERS of \$GATE token will enjoy passive income in BNB as 4% of each transaction tax is redistributed in BNB to holders.

To access the IDO analytical tools, IDOGATE provides multiple tiers of services, with the most advanced IDO analytics features available exclusively for \$GATE token holders

Features like advanced pre-sale filtering options, multiple added-value metrics, dark mode, presale saving are restricted to only VIP members who have a balance of the utility token \$GATE.

05

IDOGATE

Features

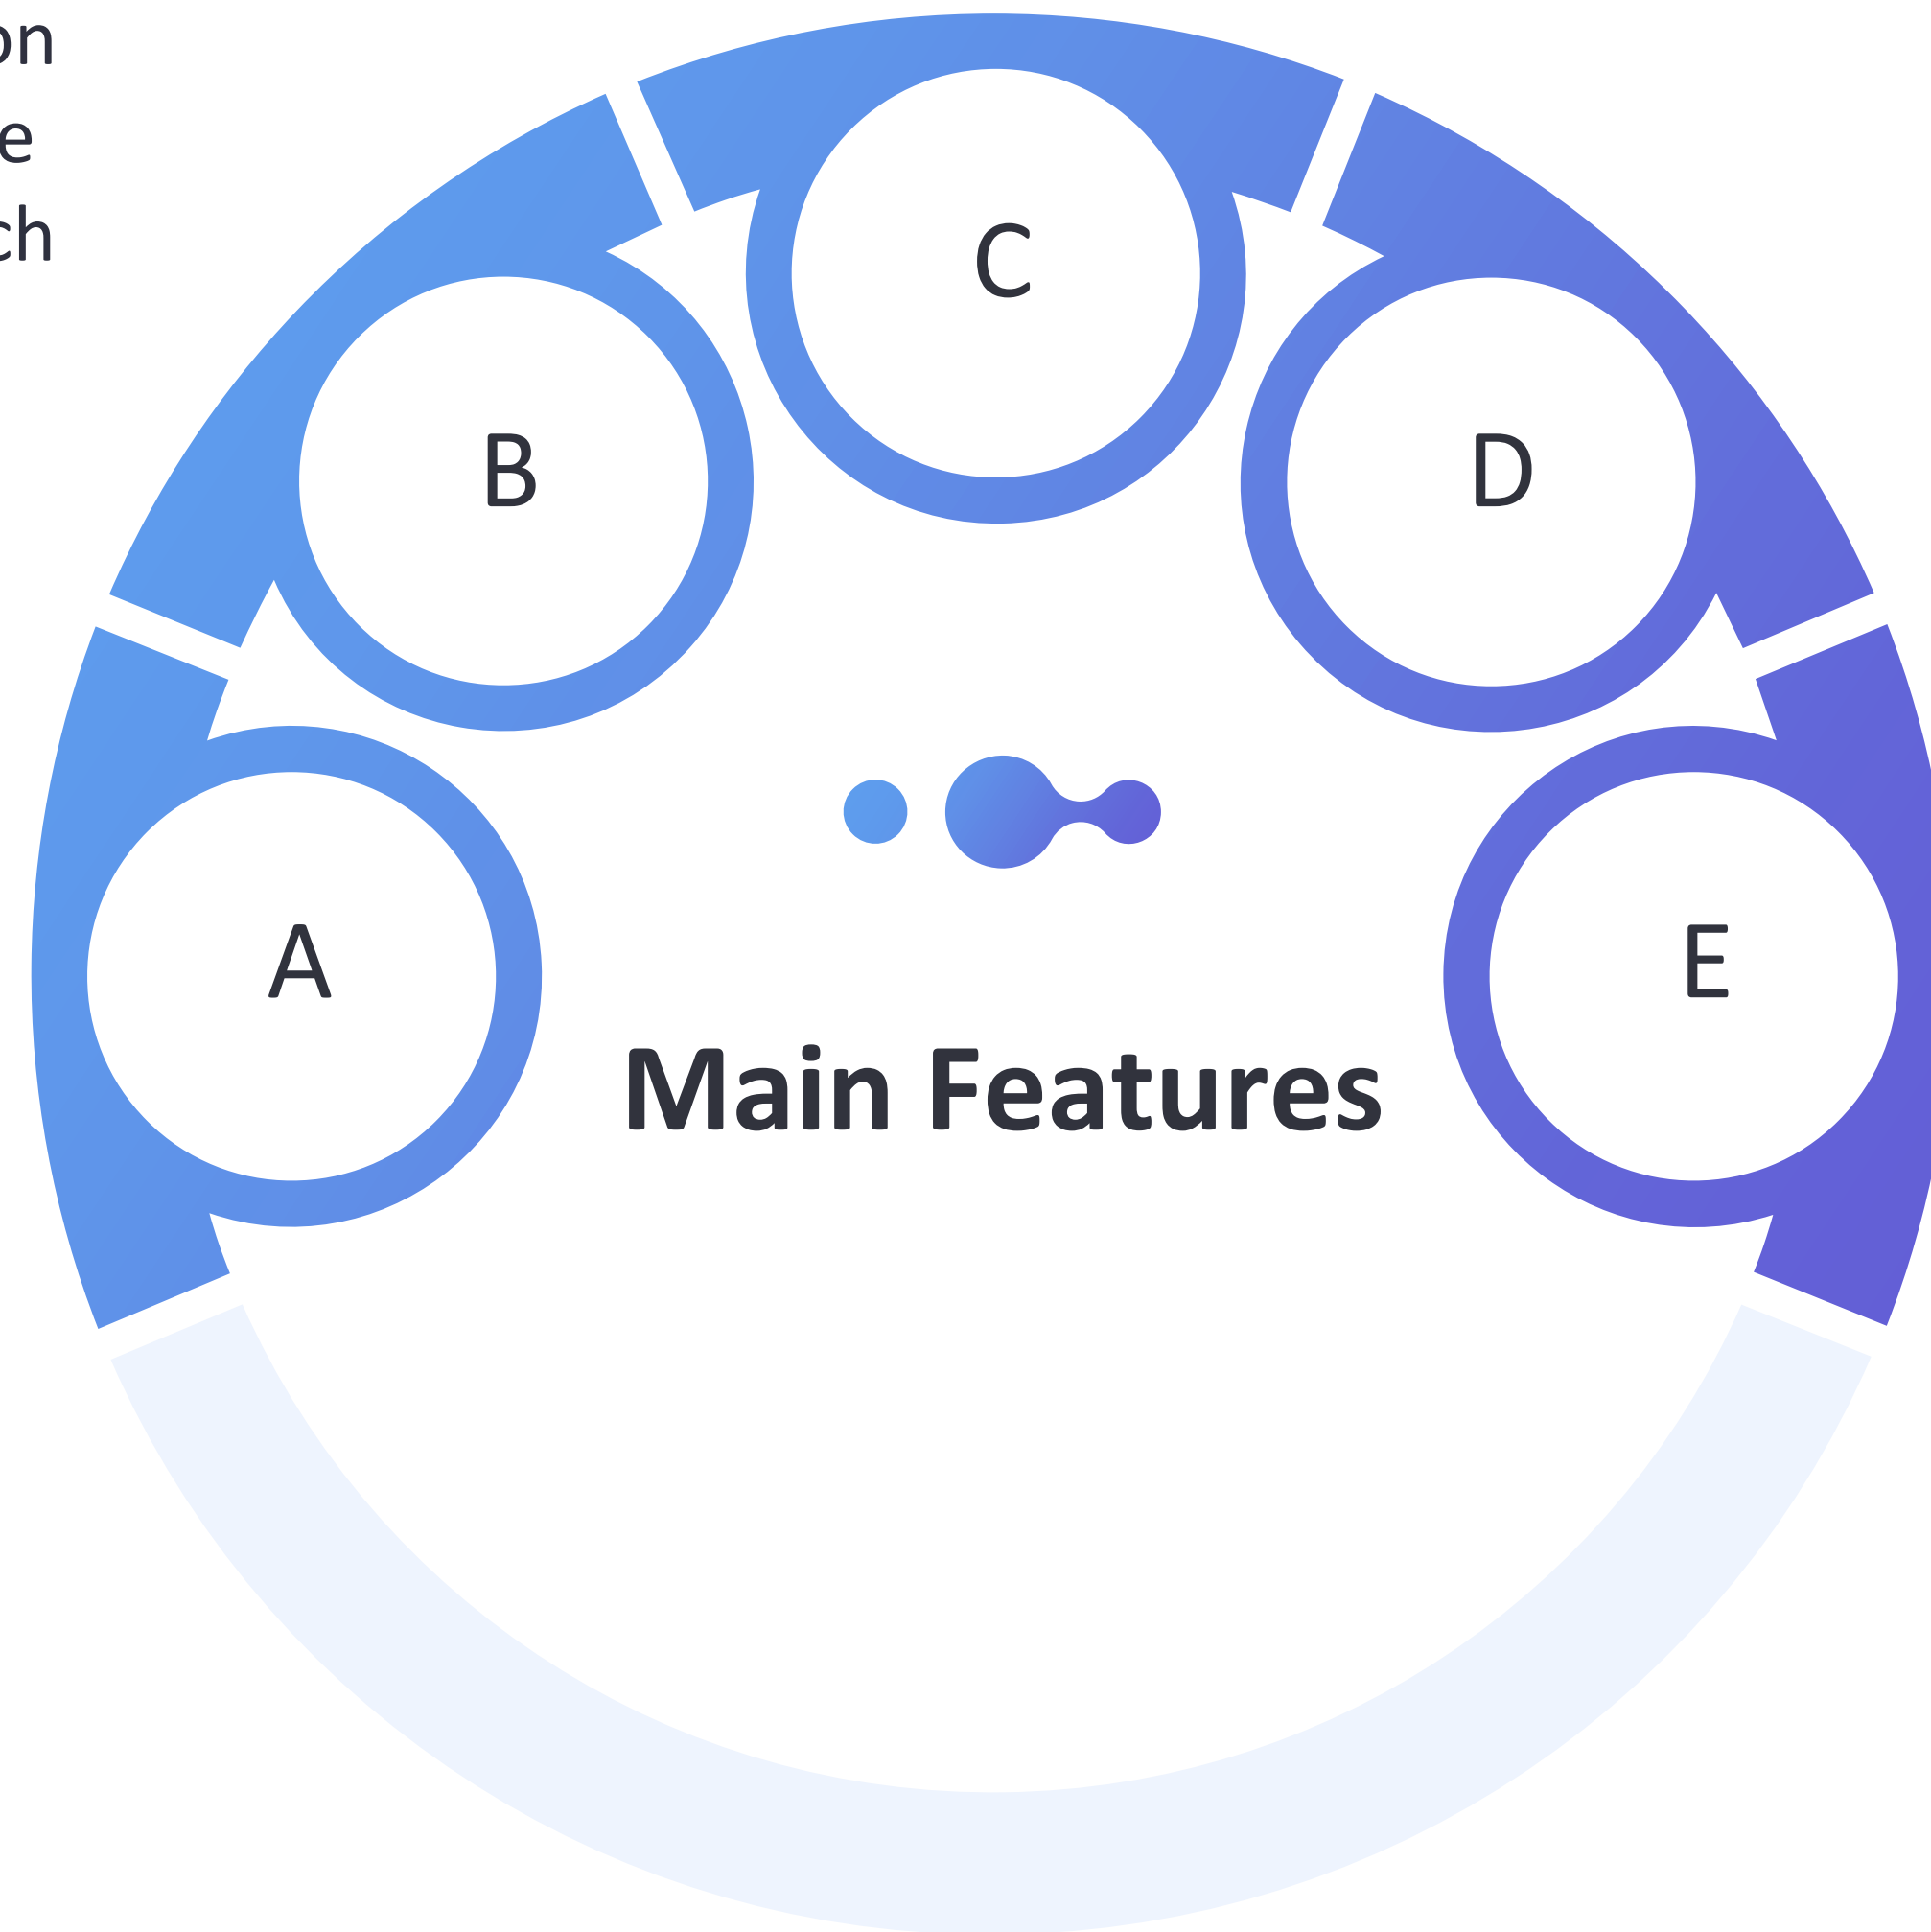

B. View crucial information about each pre-sale like audit, dox status, launch countdown, project description

C. Never miss your chance at a x100 project again

D. Hold our utility token \$GATE to break the barriers and have access to IDOGATE Pro, and all its amazing features

A. View Token presales from 50+ launchpads

E. \$GATE Holders earn passive income in BNB

Roadmap

Roadmap

Phase 01

- ✓ Social Media Channels & TG Group Setup
- ✓ Website Launch
- ✓ Whitepaper
- ☐ Contract Deployment & Audit
- ☐ Private Seed Sale
- ☐ Pre-Sale On Dx Sale

Phase 02

- ☐ Pancakeswap Listing
- ☐ Coingecko Listing
- ☐ Coinmarketcap Listing
- ☐ Bounties & Contest
- ☐ IDOGATE NFTS

Phase 03

- ☐ CEX Listing
- ☐ IDOGATE Launchpad For Defi Projects
- ☐ IDOGATE DAO System
